

„Terrible. My husband and I went to see this past week. We were both completely bored. Just awful. Waste of time and money. Do yourself a favor, skip it. The only interesting thing was the trailer.“

„I went into this movie unsure what to expect because the trailer didn't give the plot away, which I always appreciate. This movie was packed with an interesting story about revolution and power. I personally think this movie should have been a TV series. The story was long and there were a lot of characters. In an 8 or 10 episode format, they could go deeper into the stories and on the characters backgrounds. Overall, a decent movie though.“

„I haven't said this about a film, but it was stupid.. I rooted for no one, it was long and I should have left early.“

“I think this is top 5 PTA work. It is just so thrilling, and every cast member deserves an Oscar. Love this.”

“Action packed great cast”

“Leonardo Dicaprio was ABSOLUTELY HILARIOUS!!! This is a Great Movie!!!! Highly Recommended!!!! A++ 🍿🎬🍿”

“Retains very little of the Pynchon source, and about zero of the sensibility. I find PTA very uneven in general, unlike the majority who think he walks on water. But this film was masterful. I vote yes.”

“At least an hour too long - the entire first act was unnecessary. It was like being forced to watch the revenge of the sith before a new hope, including spoilers that the audience should have learned at the same time as the daughter (ie, truth about her mom, and why the military guy was obsessed with finding her). Bloated and indulgent.“

„Way too violent and sexistfor my taste. We walked out.“

„Didn't care for the very beginning. I understand it explained a lot of how she was but seemed to cheapen the movie.,,

“Wow! One of the best films I've seen in ages! Gripping from start to finish, outstanding! Di Caprio, Penn and Del Toro were on fire in this film! Awesomeness!”

“Great ! Feels like a lot of nods to a lot of movies and themes beyond the obvious ones. I enjoyed this very much !”

“I wasn't convinced by the writing and by Teanq Taylor's acting.”

“While it's realistic in some aspects, it mostly descends into a cartoonish satire/comedy- not a good one. Also the first 20-40 mins felt like an incredible drag. Cinematography wise it's a bad looking movie except for some rare moments.”

“A captivating thriller that politically commentates today's world issues in the background of a compelling character story about resilience and survival. Stand out performances across the board with a score that keeps the movie flowing in both its witty dialogue and action set pieces.”
